and superior  
durability.*

## Handle Barrel Style Kegs Efficiently and Safely

### APPLICATIONS

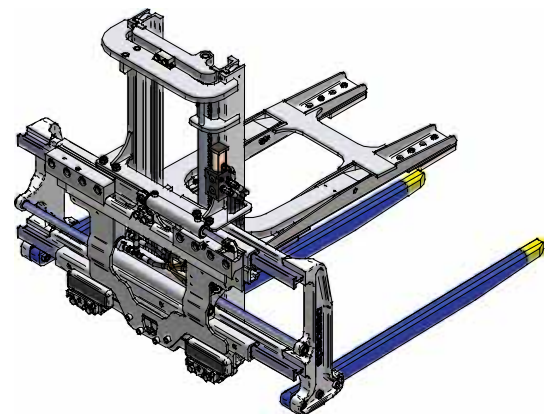

Designed for the beverage industry, the Cascade Keg Handler allows you to safely handle multiple kegs in one load. This attachment is suitable for use while loading and unloading trailers at breweries, distributors and warehouse operations.

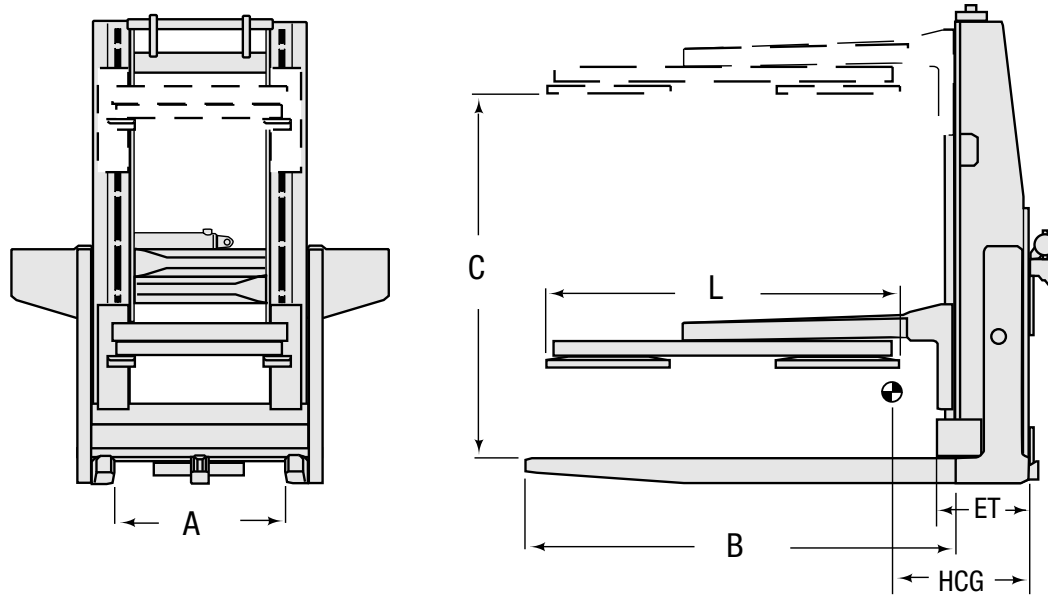

### FEATURES

- Three adjustable scalloped forks
- Keg stabilizer arms for maximum load stability
- Integral load backrest
- Class 2 or 3 bolt-on lower hooks
- Increased visibility over and through the frame

### OPTIONS

- Available in both Class 2 and Class 3 mounting groups
