The Committee will consider prospective nominees to the Board of Directors which are submitted in writing prior to January 31, 2003. Shareholders should address recommendations to the Committee at the Company’s Executive Offices. Separate reports from the Compensation and Audit Committees are presented below.

A Special Committee of Directors to consider options to increase shareholder value functioned through March 2, 2001. The Committee, consisting of Mr. Osterman, Chair, Dr. Wilgenbusch, Dr. Lardy, and Messrs. Mercier and Wessinger, was first appointed during the prior year.

Mr. Kubicek received an additional \$75,000 retainer as Chairman of the Corporation for the year ended January 31, 2002. Mr. Osterman received an additional \$25,000 retainer for service as Chairman of the Compensation Committee.

PROPOSAL 2: AMENDMENT OF THE 1995 SENIOR MANAGERS' INCENTIVE STOCK OPTION PLAN TO INCREASE THE SHARES AVAILABLE UNDER THE PLAN BY 600,000 SHARES

On November 29, 2001, the Board of Directors approved an amendment to the Cascade Corporation 1995 Senior Managers Stock Incentive Plan (Plan) to increase the number of common shares available under the Plan by 600,000, bringing the total shares reserved for issuance under the Plan to 1,400,000. As of January 31, 2002, options for the purchase of 799,995 shares were outstanding and the market price of an underlying share as quoted by the New York Stock Exchange was \$12.09. The exercise prices of outstanding options granted under the Plan range from \$9.55 to \$18.02 per share. No options granted under the Plan have been exercised. The amendment would become effective upon shareholder approval. The Board of Directors believes approval of the amendment is necessary for the following reasons:

- The Plan is the only long-term incentive plan Cascade provides;
- The availability of shares for the grant of options and other incentives under the Plan is critical to Cascade's efforts to retain key officers, managers and employees;
- There is an insufficient number of shares available for grants under the Plan in 2002 and future years.

If the amendment is approved, there will be a total of 600,005 shares available under the Plan, in addition to shares reserved for issuance under outstanding option grants. Approval requires the affirmative vote of a majority of shares represented in person or by proxy at the Annual Meeting. Unless otherwise indicated, the accompanying proxy will be voted for the proposal. Abstentions and broker non-votes will be treated as if the shares were not voted. **The Directors recommend that shareholders vote FOR the approval of the amendment to the 1995 Cascade Corporation Senior Managers' Stock Option Plan.**

Material Features of the Plan

In 1999, the shareholders approved an amendment and restatement of the Plan, including the following material features:

Plan Administration. The Plan is administered by a Stock Option Committee consisting of non-employee directors, presently the members of the Compensation Committee. The Committee determines eligible management employees, options and other rights to be granted each, and other option terms not fixed by the Plan.

Eligible Participants. Awards may be granted to Cascade and subsidiary employees, officers and directors. Directors who are not employees are ineligible to receive awards other than the automatic, one-time option grants discussed below.

Term. The Plan will continue until all shares available for awards have been issued. However, no options or other rights under the Plan may be granted after May 8, 2005.

Types of Awards. The Plan permits the following:

(1) Stock option grants, including incentive stock options under Section 422 of the Internal Revenue Code (the Code) or nonstatutory stock options: The Committee determines the number of shares subject to the option, the period of the option and the terms of exercise. The Code provides that the exercise price for incentive stock options must equal 100% of fair market value on the date of grant (110% for optionees directly or indirectly owning more than 10% of common shares). The exercise price for nonstatutory stock options must be no less than 85% of fair market value.

(2) Stock bonus grants: The Committee may issue common shares as bonuses on such terms, and subject to such restrictions, as it may determine. No shares have been issued as bonuses under the Plan.

(3) Share sales: The Committee may sell common shares to employees on such terms, and subject to such restrictions as it may determine, provided that the sale price must be no less than 85% of fair market value. No such sales have taken place.

(4) Grants of other share awards or awards based on shares: These awards may include common shares or other property. The Committee may determine the recipients of such awards and the award terms, subject to the condition that any right to purchase shares be for no less than fair market value on the date of grant. This provision permits the Committee to take into account changes in tax or other legal requirements. There have been no such grants or awards.

(5) Grants of stock appreciation rights (SAR): A SAR represents the right to payment from Cascade of an amount equal to the fair market value on the date of exercise of the number of common shares covered by the portion of the grant which is exercised over the fair market value of such shares on the date of grant. Employees pay no consideration for the grant or exercise of SARs; amounts received on exercise are subject to tax withholding. Cascade can pay amounts owed on exercise in the form of cash or common shares. No SAR have been granted under the Plan.

Value of Plan Benefits. The Plan is discretionary regarding entitlement to and amount of employee grants, and it is not possible to state or estimate Plan benefits employees will receive in the future. Certain information as to outstanding option grants to senior executives under the Plan is presented at page 10 of this Proxy Statement.

Automatic Grants. Directors initially elected by the shareholders are entitled to a one-time, 5,000 share, automatic option grant upon election. Options granted to Directors vest and become exercisable 25% upon grant and 25% per year thereafter. No present Director is eligible for further option awards under the Plan.

Tax Treatment. Tax consequences of the award or exercise of rights under the Plan to Cascade and to grant recipients will depend upon specific provisions of federal, state or foreign tax laws. A summary of basic United States federal income tax effects of awards under the Plan follows:

(1) Incentive Stock Options: Optionees normally recognize no income on the grant or exercise of options, and are taxed at capital gains rates on the difference between the exercise and sale prices upon sale of shares acquired through the exercise of options. In the event of a “disqualifying disposition” (sale within two years of grant or one year of exercise), an optionee will recognize ordinary income, and Cascade will receive a corresponding deduction, equal to the difference between the option price of shares covered by the option and the fair market value of those shares at the date the option is exercised. Any balance realized on sale would be taxed to the employee at capital gains rates.

(2) Nonstatutory stock options: Recipients of nonstatutory stock options recognize no income until an option is exercised. On exercise the optionee will recognize ordinary income, and Cascade will receive a corresponding deduction, equal to the difference between the option price and the fair market value of those shares as to which the option is exercised. When shares are sold, any increase in value will be taxable at ordinary or capital gains rates, depending upon the length of time the shares are held.

(3) Stock bonus grants, share sales, and other share awards: Grants of shares or other property which are not subject to a substantial risk of forfeiture and may be transferred will be taxable as ordinary income to the extent fair market value exceeds the amount paid. Cascade will be entitled to a corresponding tax deduction for compensation. To the extent such grants may not be transferred or are subject to a substantial risk of forfeiture, a recipient, and Cascade, normally will not realize these

income tax consequences until the risk of forfeiture lapses or the shares become transferable; however, the recipient may elect to recognize income for tax purposes upon grant as if there were no restrictions on transfer or risks of forfeiture, in which case Cascade would generally receive a corresponding deduction at that time.

(4) SAR Awards: Recipients of SARs realize no income until the SAR is exercised. On exercise, the recipient will recognize ordinary income, and Cascade will be entitled to a compensation deduction in an amount equal to cash, and the fair market value of any shares, received.

COMPENSATION COMMITTEE'S REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee recommends executive salary levels and compensation programs to the Board of Directors for approval. Compensation for key Cascade executives consists of three major elements: base salary, annual incentive, and long term incentive. The Committee, with advice from the consulting firm of William M. Mercer Co., had previously reviewed executive compensation and developed an approach to salary and incentive compensation which was fully implemented during the year ended January 31, 2002.

The Committee recommended base salary levels for the year ended January 31, 2002, after considering both compensation ranges for executives with like responsibilities in comparable companies and industries, and their view that executive compensation should reflect performance incentives to a substantial degree.

The incentive plan groups executive officers according to responsibility levels and establishes target annual incentive levels for each group. Incentive payments are triggered only if Cascade's net income reaches 75% of budgeted net income. Executive incentive awards, except for the Chief Executive Officer, are based on three criteria: Cascade's net income relative to the budget (40%), return on assets (40%), and the individual executive's achievement against agreed objectives (20%). Once net income of 75% of budgeted net income is reached, executive officers will be eligible for bonuses equal to a minimum of 40%, and a maximum of 200%, of their target incentive depending upon the degree to which the three qualifying criteria are met. For the year ended January 31, 2002, no regular incentive payments were made to officers, including the Chief Executive Officer, since Cascade's net income did not reach 75% of budgeted net income.

The Committee and the Board will provide long-term incentives through option grants under Cascade's Senior Managers' Incentive Stock Option Plan upon approval by shareholders of Proposal 2 in this Proxy Statement.

The Committee and the Board establish the Chief Executive Officer's compensation according to the criteria outlined above. Mr. Warren's incentive level target for the current year will equal 75% of base salary, and his incentive payment will be based 50% on net income relative to budget and 50% on return on assets, thus tying his incentive eligibility entirely to overall corporate performance.

AUDIT COMMITTEE REPORT

The Company's Audit Committee consists of five non-employee directors, who are independent, as that term is defined in Sections 303.01(B)(2)(a) and (3) of the New York Stock Exchange Listing Standards. The Board has adopted a charter that governs the Audit Committee. The Charter is attached to this Proxy Statement as Appendix A. The members of the Committee are Ernest C. Mercier, Chair, C. Calvert Knudsen, Greg H. Kubicek, James S. Osterman, and Nancy A. Wilgenbusch.

The Company's management is responsible for Cascade Corporation's internal controls and financial reporting. PricewaterhouseCoopers, LLP, Cascade's independent auditors, are responsible for auditing Cascade's annual consolidated financial statements in accordance with generally accepted auditing standards and for issuing a report on those financial statements. The Audit Committee monitors and oversees these processes, recommends to the Board the filing of Cascade's annual and quarterly reports with the Securities and Exchange Commission, and recommends to the Board for its approval a firm of certified independent accountants to be Cascade's independent auditors.

To fulfill our responsibilities, we did the following:

- We reviewed the independent auditors audit plan for the year ended January 31, 2002.
- We reviewed and discussed with Cascade's management and the independent auditors Cascade's consolidated financial statements for the fiscal year ended January 31, 2002.
- We reviewed management's representations to us that those consolidated financial statements were prepared in accordance with generally accepted accounting principles.
- We discussed with the independent auditors the matters that Statement on Auditing Standards No. 61 (communications with Audit Committees) requires them to discuss with us, including matters related to the conduct of the audit of Cascade's consolidated financial statements.
- We received written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1 relating to their independence from Cascade, and we have discussed with PricewaterhouseCoopers LLP their independence from the Company.
- We considered whether PricewaterhouseCoopers LLP's nonaudit services to Cascade were compatible with maintaining their independence from Cascade.
- Based on the discussions we had with management and the independent auditors, the independent auditors' disclosures and letter to us, the representations of management to us and the report of the independent auditors, we recommended to the Board that Cascade's audited annual consolidated financial statements for the fiscal year 2002 be included in Cascade's Form 10-K for the fiscal year ended January 31, 2002 for filing with the Securities and Exchange Commission.
- Based on the discussions we had with management and the independent auditors, the representations of management to us and the representations of the independent auditors, we recommended to the Board that Cascade's interim consolidated financial statements at April 30, 2001, July 31, 2001 and October 31, 2001 be included in Cascade's Form 10-Q for the quarters then ended for filing with the Securities and Exchange Commission.
- We recommended that the Board select PricewaterhouseCoopers LLP as Cascade's independent auditors to audit and report on any consolidated financial statements of Cascade filed with the Securities and Exchange Commission in fiscal year 2003.

Under the agreements each would be entitled to certain benefits if his employment is involuntarily terminated (other than for cause) within 12 months following a change in control of the Company. In addition to discharge, involuntary termination includes resignation following a change which materially reduces an individual's level of responsibility, a 20% reduction in level of compensation, or a relocation of place of employment by more than 50 miles.

The agreements define a change in control of the Company as (a) a change in the composition of the Board of Directors over a period of 24 months or less as a result of contested elections which results in a majority of Board members who were not Board members at the beginning of the period or were not subsequently nominated or elected by the Board; (b) sale, transfer or other disposition of substantially all of Cascade's assets; (c) a merger or consolidation in which securities with more than 50% of the voting power of all outstanding Cascade securities are transferred to persons different from the holding of such securities prior to the transaction; or (d) the successful acquisition of securities possessing more than 35% of the voting power of all outstanding Cascade securities pursuant to a transaction or series of related transactions that the Board does not recommend for shareholder acceptance or approval.

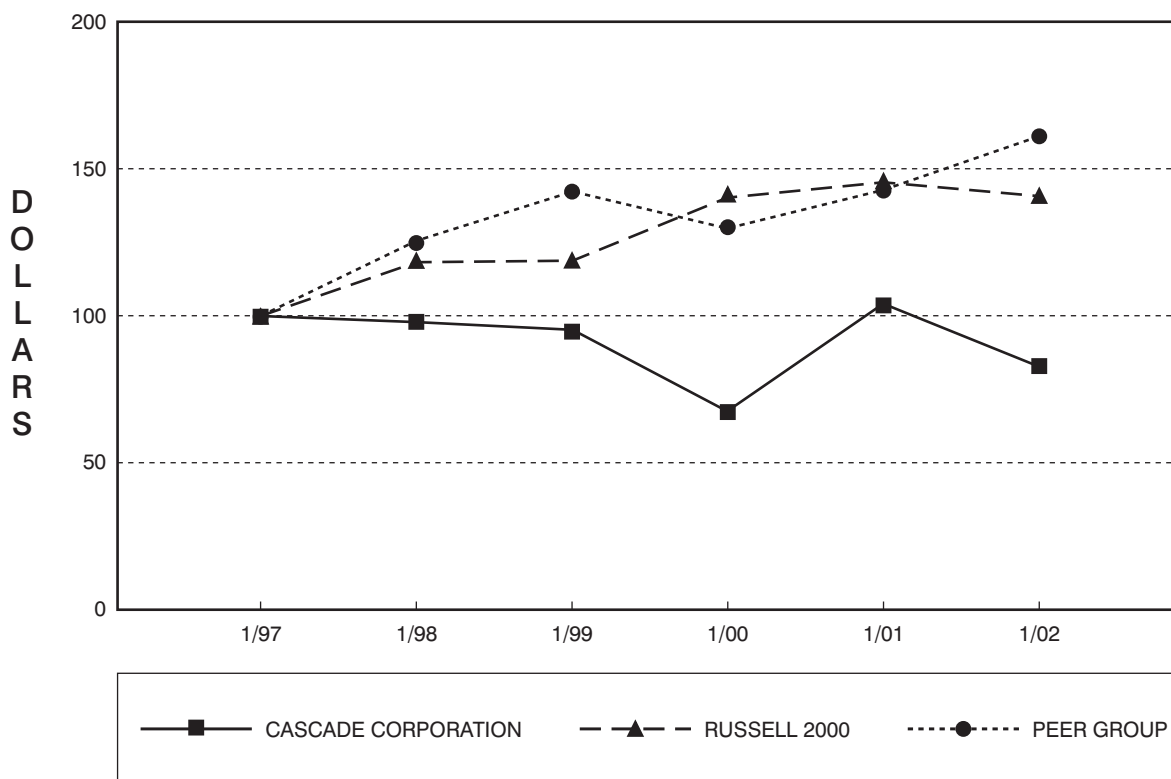

An officer whose employment is involuntarily terminated following a change in control would receive the following severance benefits: (a) a lump sum payment equal to 2.99 times the officer's average annual compensation of the prior three years as reported on Form W-2; (b) accelerated vesting of all outstanding stock options; and (c) continued health coverage for the officer and eligible dependents for a period of 24 months or until the officer is covered by another health plan which provides a substantially similar level of benefits. In order to avoid becoming an excess parachute payment under federal tax laws, the total benefit package is limited to 2.99 times the officer's average compensation as reported on Form W-2 for the prior five years, subject to certain exceptions, provided under the Internal Revenue Code.

Each agreement provides that the officer will not compete with Cascade for a period of 24 months following termination of employment for any reason.
